

Incident Response Plan

Document ID: POL-IT-006

Severity Levels

- **SEV-1:** Major service outage or confirmed data breach — activated within 15 minutes
- **SEV-2:** Partial outage or potential security incident — activated within 1 hour
- **SEV-3:** Minor issue with workaround — handled during business hours

Communication

SEV-1 incidents require executive notification within 30 minutes and client notification within 4 hours where client data is affected.

Post-Incident Review

SEV-1 and SEV-2 incidents require a post-incident review within 5 working days.

Documentation

All incidents are logged in the Incident Register. Runbooks are maintained on the IT Confluence.
